LEADERS IN TRAINING

The LIT program is a two-week program that provides campers the opportunity to develop strong leadership skills, self-confidence, and social-emotional maturity. Campers will form lasting bonds while learning about how to be change-makers in their communities--both at home and at camp. Throughout the two weeks, campers will find solutions to real problems that involve communication, decision making, and conflict resolution. The LIT program is a stepping stone for older campers who are interested in becoming future camp leaders or for those who want to develop their leadership skills. This is the ONLY program where campers stay through the weekend.
